MOLOU THEATRE UNDERGOING EXTENSIVE ALTERATIONS

On Monday, January 14th, the Molou Theatre at Haliburton will close for approximately two weeks for alterations.

When the Theatre opens its doors after alterations are complete, there will be accommodation for 330 seated and standing room for 50 in the foyer. At present provision is made for only 228. Besides being extended, the slope of the floor will be adjusted so that patrons in the back rows will not have to strain their neck to get a clear view of the sight range on the screen.

A new heating and air conditioning system is being installed also and the management advises that in the spring the front of the Theatre will be modernized with two plate glass shadow type boxes with stainless steel trim and a gleaming Vitrolite front.

Mr. Lou Consky is to be congratulated on his step. The Molou is already providing entertainment second to none anywhere and with

the many alterations which are now being made for the comfort of the patrons, Haliburton County should have a Theatre which can be pointed to with pride.

DVR. MECH. MAX HARTIN ARRIVES IN GOODERHAM

We are pleased to report that another of our soldier boys arrived safely home on Sunday afternoon. He is Dvr. Mechanic Max Hartin. He arrived on the Queen Elizabeth and reports a grand voyage and Christmas aboard the ship was very homelike.

He was met in Lindsay on Sunday afternoon by his cousin Sgt. A. Maxwell, who arrived home during the summer, also by his parents, Mr. and Mrs. A. Hartin and his brother Marvin.

He was entertained at Reeve Maxwell's home on Sunday evening for supper where he met many relatives who welcomed him home.

On New Year's Day his parents entertained the relatives to a New Year's dinner and social gathering.

Victoria & Haliburton Veterans To Be Well Entertained

Major General Bruce Matthews, recently appointed Director of Rehabilitation for the Province of Ontario, has been secured as the guest speaker for the great reunion of veterans of Victoria and Haliburton Counties to be held in Lindsay on January 19th. General Matthews had a brilliant military record overseas and will have a real message for the vets.

A top notch program of entertainment to follow the banquet and address by General Matthews has also been arranged. Pat McIntosh, one of Canada's outstanding comedians is bringing a cast of professional entertainers who will provide a full hour's fun and frolic for the hundreds of veterans expected to attend. Mistress of ceremonies will be Miss Marjorie Waters, personality singer, who will delight the vets with songs old and new. Miss Lois Spence who is rated tops in the dancing field will display her specialty, the Russian acrobatic dance, in addition to several other dancing numbers. Miss Marion Seegar will entertain with music on her accordeon and Ray Calder will be at the piano. Star attraction is Covelle the Magician, who stands 6 ft. 7 inches and is full of magic from head to foot.

Sporting Events

At 2 in the afternoon there will be a super exhibition hockey game between Victoria and Haliburton Counties. Ralph Wakelin is lining up the Victoria team and there will be strong opposition from the northern squad. The game will be played at the Russell Street Arena which the Kiwanis Club have donated free of charge to the veterans.

For those more interested in curling, the facilities of the Lindsay Curling Club are being placed at the disposal of the veterans for the afternoon.

At 4 there will be a show in the Academy Theatre to which all veterans are invited as the guests of Hi Meehan, manager of the theatre.

The banquet will commence sharp at 6.30 at the Armouries and will be followed by the address of General Matthews, who will be introduced by Hon. L. M. Frost, K.C., M.L.A. This, in turn, will be followed by the program of entertainment which will bring the day's proceedings to a close.

Ladies of Queen Street United Church are catering for the monster banquet and they promise a real dinner. These ladies are famed for the meals they serve at the Lindsay Exhibition and the one to be served on January 19th will equal, if not surpass, all previous

It's rest time for Dr. Agnes Jamieson, Haliburton County's busy doctor, and she takes time out to make her pet dog, Muff, go through some of his repertoire of tricks. — Photo & Eng. courtesy Toronto Star

Dr. Agnes Jamieson Has Aided 500 Stork Visits

It would take three of England's metropolitan London's to fill the area that Haliburton county's Miss Doc Sawbones covers alone. But with the close of her first decade of practise, most of it in this outpost of one of Ontario's fast fading frontiers, diminutive five foot Dr. Agnes Jamieson figures that the toughest times have been left behind.

"There is not nearly the frontier life of 10 years ago, when I first came here" she explained. "Farmers have been moving in and roads are being built. There are fewer and fewer calls to backwoods cabins and remote lumber camps."

Travelled by Handcar

The lowlight of her Minden life was the time she had to travel 15 miles on a railway handcar to answer an urgent appeal for medical aid.

"The train was too slow", she explained.

Another time, late at night, she crawled in her car for two miles behind a snowplow that opened up a road into a lumber camp.

For years, Dr. Jamieson had her own team of horses for hauling a buggy or cutter over back roads when the going was too tough for a car. But once, even these failed her when deep drifts blocked a lane and she had to help push a buggy loaded with a sick patient for a mile from a farmhouse to a road.

Rare are women country doctors, but rarer still are women who also are coroners. And Dr. Jamieson also has this distinction, one of two in Ontario.

Has Delivered 500 Babies

Winter is her quiet season. As one of the two doctors in Haliburton, she serves about 3,000 people in the winter but double that number in summer when tourists flock in. She has delivered 500 babies to date.

Dr. Jamieson graduated from the University of Toronto in 1935 and first practised in Mimico. She won fame here in February, 1940, when she handled an epidemic of 74 cases

of measles that was spread over woods townships.

A budding recruit to the medical profession is nine year old Karen Myles, daughter of one of the two nurses who help Dr. Jamieson run Minden's only drug store. She is a regular after school assistant to the doctor who reports that Karen is quite capable of making certain tests to relieve the overworked Miss Sawbones.

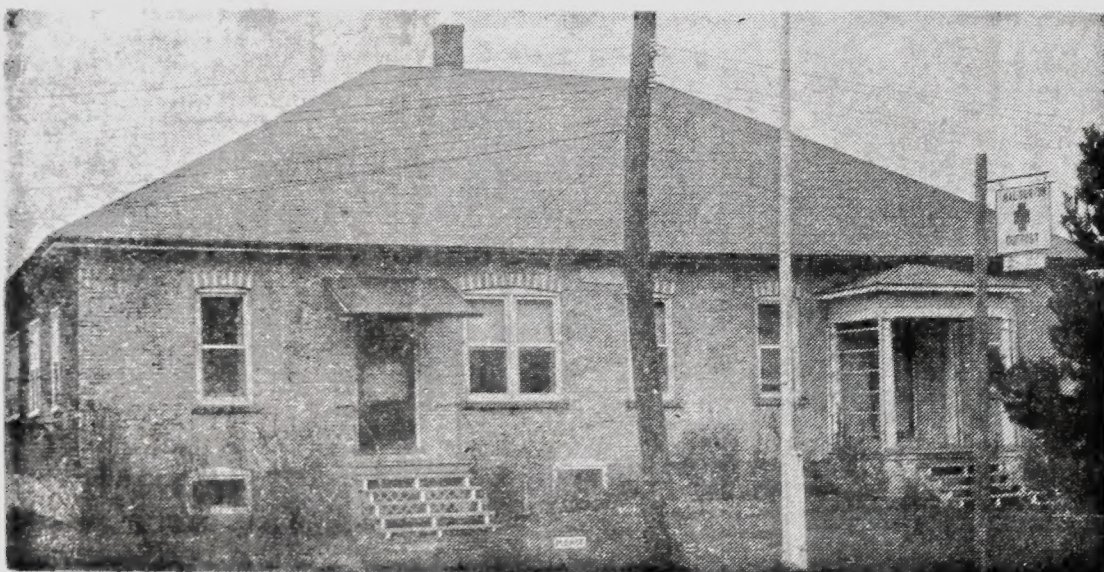

RUSSELL T. KELLEY, member for Hamilton-Wentworth, who was appointed as Minister of Health for Ontario and sworn in at the Parliament Buildings this week.

TO ELECT RED CROSS OFFICERS JANUARY 18th

On Friday, January 18th, the annual meeting of the Haliburton Branch of the Red Cross will be held at 8 p.m.

A special program and guest speaker has been arranged for and all who are interested in this work are invited to attend.

Reports will be made on all departments and election of officers will take place.

HALIBURTON OUTPOST HOSPITAL. This modern, 10 bed institution brings excellent health service to community and area within 35 miles radius.

EDITORIALS

PEACE GARDENS

The seed catalogues are here again. Gaye than
ever. More enticing. Petunias more ruffled. Marigolds
more flashing. Tomatoes firmer. Squashes larger.
Cora sweeter. Cucumbers more prolific.

So suggestive of promise are the alluring des-
criptions that almost are we persuaded to continue
our Victory Gardening, that during the lean war
years helped to replenish our empty food-baskets.
Nor has the need ceased with the firing and fight-
ing. The world needs food, quantities of it. In the
markets, food prices are already rising. All of
which points both to the privilege and necessity
for even larger plans for this season's gardening.
Once again let us put our hands to the hoe.

Peace Gardens, we shall call them, and pray
they fruitful be.

FAREWELL TO BELL BOTTOMS

Christian Science Monitor

Doubtless a great many American sailors were
outwardly proud of their distinctive garb. For 145
years they have swaggered gaily through the streets
of the world's sea ports in their wide-collared, bel
bottomed uniforms. Even inland America came to
know them well in World War Two. And, unless
you were a Navy man yourself, you never caught
a Navy man saying anything against the clothes he
wore. Above all, no Army man ever heard a com-
plaint. But in the privacy of quarters there was
many a gripe. That's why, doubtless, the Navy
has moved at last to a radical change in design.

Among the oddities done away with will be —
Those 13 button trouser flaps and pocketless pants;
those bell bottoms, always in the way; the skin
tight, form-fitting build of trouser tops and jumper;
the useless square collar that forced a fellow to put
on his pea coat over his head to keep from wrinkling
it; the white stripes on the blue jumper collar and
cuffs that were such a "pain in the neck" to
keep clean; the black neckerchief that had to be
folded over and over to form a necktie.

Twenty-five hundred "guinea pigs" afloat and
ashore, are trying out normal width trousers, which
have conventional fore-and-aft creases, instead of
at the side; a jumper-type shirt that tucks inside the
pants, and a battle jacket for winter wear — and
all with pockets! Thus the remnants of an ancient
British heritage are about to be jettisoned, to join
the old tarred pigtailed and patent-leather hats.

Soon the boys won't have to pretend any longer
that they glory in their peculiarities.

CAMERA HELPS REBUILD BRITAIN

The camera is destined for a new role in planning
the postwar world. After playing its part in plotting
the air destruction of European cities, it will now
do its share in rebuilding many of the war-devastated
cities of Europe.

Aerial photography, based upon the experience
gained during wartime, is to be a leading factor in
the reconstruction of war-torn Britain at least. This
photographic art will be useful in many ways, ac-
cording to preliminary surveys.

Its use is intended for general map revision and
town planning. It will also be used for plan-
ning irrigation projects, for soil classification, for
the construction of railways and the building of dams.
It will even determine the location of sites for new
factories and hydroelectric plants.

One of the instruments to be used in this work
will be the stereocomparograph. This combines a
novel method of accurately photographing wide areas
of countryside with a map-making process that over-
prints all landmarks and the main contours of the land
onto the photograph to exact scale.

Another device that will play an important part
in the work of photographing Britain from the air
will be the stereoplanograph. This is a German
instrument developed for use in air bombing. It
automatically records the contours of areas from
aerial photographs.

Town and county planning experts elsewhere will
likely watch with considerable interest the task
of rebuilding the new Britain with the aid of photo-
graphic air views. It is at least an innovation in the
100 year old story of photography.

THE QUIET HOUR

WHEN YOU PRAY

Rev. K. P. Jull

"When you pray, go into your
room and shut the door." Matt.
6.6 (Moffatt).

A man was talking in a telephone
booth to a friend in a distant city.
As the conversation proceeded, the
man kept saying "Talk louder I
can't hear what you are saying."
Finally his friend replied "If you
will close the door and shut out
all those noises, you will be able
to hear me."

There is an even more urgent
necessity for shutting out "all
those noises" if we are to hear
the voice of God, for it is a
"still, small voice" as Elijah dis-
covered. Therefore "when you pray
go into your room and shut the
door."

In turning to the earthly life of
Jesus as recorded in the gospels,
it becomes clear to us that what
Jesus means here is not, literally,
that prayer should be confined to
one's own room. Jesus Himself
did not pray only in a certain room
nor retire behind closed doors when
He wanted fellowship with His
Heavenly Father. It is true that on
several of these recorded occasions
of prayer, Christ sought a private
place, as when He continued all
night in prayer (Luke 6:12). But
instances of Jesus praying while
with His disciples (John 17) while
hanging on the Cross (Matt 27:46)
and in the presence of the multi-
tude (John 6:11) are also given us.
Hence it would seem that our Lord
had in mind a deeper meaning for
these words.

If you will read the whole verse
from which our text is taken you
will see that Jesus is here speaking

of genuine prayer in His own day,
viz, the saying of a certain form
of words in some public place
where all could see how pious was
the one praying. Prayer, Jesus
pointed out, is the secret commun-
ication of the individual soul with
God. "... pray to thy Father
which is in secret, and thy Father
which seeth in secret shall reward
thee openly." Let us note the
emphasis put upon secrecy. The
prayer may be uttered or unutter-
ed, it may be public or private, it
may be long or short, but whatever
else it may or may not be, it must
be spoken to God alone by the in-
dividual, else God cannot in turn,
speak to the soul of the one pray-
ing. Therein lies the secrecy of
which Jesus speaks. That is what
He means by closing the door. We
must close the door of our soul
to all the anxieties, the ambitions,
the prejudices, yes, the necessities
of the world, if we would speak to
God, and He to us. "Be still and
know that I am God."

Little Iodine

By Jimmy Hatlo

Best wishes for the New Year. Homemakers! Most of us look forward to 1946 with great hope, promise and a strong personal resolve. We hope for a new year of peace and prosperity; we have promise of a more normal way of life, and are determined to make up for the war years and to remember those less fortunate than ourselves.

We think the following recipes

tblsps. flour, 3/4 cup milk and 1-1/4 cups grated cheese. Melt fat, add flour and stir until smooth. Stir in milk slowly.

Candied Apples with Coffee Sauce

8 tart apples sliced
1 cup sugar
2 tps. orange rind
1 cup water

Boil sugar, water and orange rind 2 mins. Cook sliced apples with syrup in a covered dish until they become transparent. (If more liquid is necessary, add water.) Put in serving dishes and top with coffee sauce.

Coffee Sauce: 1/3 cup sugar, 1/4 tsp. salt, 2 tblsps. flour, 1 cup cold coffee, 1/2 tsp. vanilla
1 beaten egg white.

Mix sugar, salt and flour with the coffee. Stir over low heat until smooth. Cool to lukewarm, add vanilla and fold in beaten egg white.

Chocolate Puffed Clusters

5 cups puffed rice or wheat
3/4 cup sugar
1/4 cup light corn syrup
1/2 cup water
1/4 tsp. salt
1-1/2 squares chocolate
1-1/2 tblsps. butter
1 tsp. vanilla

Crisp cereal in a preheated electric oven of 350 deg. for 10 mins. and place in a large greased bowl. Combine sugar syrup, water and salt in saucepan; cover and bring to a boil. Uncover and cook to a soft ball stage. Melt chocolate and butter; combine with syrup; add vanilla. Pour chocolate syrup over cereal and mix well. Drop by spoonfuls onto wax paper and cool.

The Suggestion Box

Roasting meats at moderate temperature (325 deg) to prevent evaporation of gravy and tasty fat, suggests Mrs. T. G.

Mrs. N. C. says Vinegar 'mother' will not form if a half teaspoon salt is added to a newly opened bottle.

Miss B. R. says: Wrap cheese in a cloth wrung out of vinegar and then wrap in wax paper.

Many thanks for your heartfelt Christmas wishes. You have been most gracious. Happy New Year to you all.

(Anne Allan invites you to write to her in care of the News. Send in your suggestions on homemaking problems and watch this column for replies.)

WEST GUILFORD

Pte. Carl Sawyer of the Stormont, Dundas and Glengary Highlanders; Gunner Bill Simms, Artillery; and Sapper Wesley Stata, Engineers, have recently arrived from overseas, details later.

Mr. Henry Barnum is in the Red Cross, Haliburton, with a severe case of bronchial pneumonia.

We are pleased to welcome home Mrs. Sarah Simms after a successful operation at the Ross Memorial Hospital, Lindsay.

A large number of friends gathered at the home of Mr. Alan Barry on Christmas night for a pleasant evening of dancing and other festive amusements.

December 20th was a very eventful occasion for it featured the annual school concert and tree in the afternoon plus an evening carol service at St. Andrews Anglican Church. The latter also embraced a series of moving pictures on Chinese life and a Sunday School Christmas tree.

Acquaintances of Miss Betty Sisson are grieved to learn that she is still suffering from rheumatic fever.

'Romantic fever' of a sort is also prevalent and cupid has been busy lately.

Mr. and Mrs. Jack Edwards, who hie from Oshawa, spent Christmas with Mr. and Mrs. George Jones of West Guilford.

Mrs. Murray Barry who has been convalescing in the Haliburton Hospital over Christmas was able to return to her home on the 28th of December.

The Misses Iris Sisson and Bernice Cooper, Cpl. Murray Scott and Mr. Bernard Sisson were with their respective parents at Christ-

mas.

Mr. Lorne Cooper spent Christmas with friends in Toronto.

Mr. Frank Barnum who sustained a broken heel while skidding logs at Bailey's camp at the head of Big Redstone on December 17th, is doing nicely although he is still forced to carry the injured member in a cast and navigate by means of crutches.

Speaking of casts, Miss Maizie Sisson, whose arm was broken while dancing, continues to wear hers.

By special invitation the "Gull Club" attended the Carol Service at St. Peter's Anglican Church at Maple Lake on Wednesday, December 19th. After the service a delightful lunch was served.

Miss Colleen Miller of Haliburton spent several days with friends at West Guilford.

Mr. Laverne Cruickshanks and Mr. Moss Upton spent several days visiting with friends at Hagersville and Simcoe.

IN MEMORIAM

HEWITT —

In loving memory of our dear sister, Nina Elizabeth Hewitt, who passed away Dec. 26th, 1946. Gone from us leaving memories that can never take away. Memories that will always linger while upon this earth we stay.
— Ever remembered by
Sisters & Brothers

HEWITT —

In loving memory of our dear daughter, Nina Elizabeth Hewitt, who passed away Dec. 26, 1943. There's a face that's haunting us ever
There's a voice we are longing to hear
There's a smile we'll remember forever.
Though we try to forget every tear
There's a sad but sweet remembrance
There's a memory fond and true
There's a token of affection dear
And a heartache dear daughter for you.
— Ever remembered by
Mother, Dad

GELERT

Mrs. E. Hollowell has returned home after attending the funeral of her sister in law at Hamilton.

Mrs. Clara Clark was a business visitor in Lindsay on Friday last.

We are pleased to welcome LC Orval Francis home from overseas. Mrs. Louis Barber of Carnduff, Sask. is visiting friends and relatives here after an absence of thirty five years.

Mr. and Mrs. E. H. Peacock spent New Year with their daughter, Mrs. E. Tompkins in Lindsay.

Mrs. Geo. Schrader and children were in Fenelon Falls on Friday.

Mrs. S. Winters of Toronto was the holiday guest of her mother, Mrs. J. Francis.

Mr. Len Hamilton, Jim and Bradley of Minden, called at Mr. Frank Hamilton's on Sunday.

Mrs. Orval Hicks of Lochlin spent Saturday afternoon with relatives in the village.

SPRING BUILDING BOOM ANTICIPATED IN HALIBURTON

It is expected a great building boom will take place in Haliburton Village in the spring. Two new restaurants, a new and modern Drug Store and two up to the minute Service Stations are being planned as well as many dwellings. While all these new buildings are

Nurse makes a prenatal visit at settler's home. She will have an opportunity to check on health of pre-school age children.

Leafs Find It Hard To Get Playoff Spot

The Toronto Maple Leafs suffered another defeat last Saturday night at the hands of the Chicago Black Hawks. This was a win which the Blackhawks needed to stay tied in first place with the Montreal Canadiens. It was the first shutout of the season for Karakas in the Chicago nets.

Led by the Bentley brothers Doug and Max, the Black Hawks dominated the play throughout. Even with Chicago a man short the Leafs were unable to score. Many a time the Leaf forwards would rush in on Karakas but were unable to beat him.

If the Leafs are expecting to make the play-offs they will have to play different hockey than in the past games. The Leafs who are only 3 points out of the League cellar will need to be aware of the New York Rangers who are pressing close behind.

From here it looks as if the Detroit Red Wings, Chicago Black Hawks, Montreal Canadiens and Boston Bruins will fight it out for the Stanley Cup.

O.H.A. Schedule In Full Swing

The Intermediate 'B' OHA schedule for Victoria and Haliburton has really swung into action.

Three teams are entered, namely Peterboro, Bobcaygeon Kinsmen and Haliburton Huskies. Peterboro is playing their home games in Lindsay as they unfortunately have no Arena of their own. The teams are evenly matched and some good hockey is in store for the fans.

Peterboro is well known as a hockey town and many fans will travel to Lindsay to take in the games. Bobcaygeon fans are expected to pack their Arena to capacity and the Northern town of Haliburton can be depended upon to turn out in big crowds as they are known to be rabid hockey fans.

Each team will play an eight game schedule, four at home and four away. The top two teams will play a best 3 out of 5 series to get a winner. The schedule ends February 8th.

SPORT HIGHLIGHTS

The opening game of the Intermediate 'B' OHA was played in the Haliburton Arena last Wednesday. Four hundred fans turned out to see the fast travelling Huskies play host to the Bobcaygeon Kinsmen. It was by far the fastest game in Haliburton this year. The game was packed full of thrills with each team travelling at high speed. After three hard fought periods the Huskies emerged as the victors by a score of 6-2. The Huskies were out in their new blue and white uniforms.

It wasn't until 8 and a half minutes of the first period with Bobcaygeon a man short, that Dart scored to put the Huskies in the lead by a score of 1-0. This was all the scoring in the first period.

Yarnold and Newman opened the second period ruffing it up and getting penalties. When these two players were off, Hes made it 2-0 for the Huskies on an assist by Pat McKay. Then 2 minutes later Percy Nicholls scored Bobcaygeon's first goal by beating Bannon with a low shot. At the end of the 2nd period it was Haliburton 2, Bobcaygeon 1.

Seven minutes after the 3rd period started Hes scored his second goal of the evening to make it 3-1. 2 minutes later Day took a pass from Brohm and drove it home to give the Huskies their fourth goal. Then at the 14 minute mark Dart scored his second goal to make it 5-1 for the Huskies. Brown received a penalty for tripping one of the Bobcaygeon players. While he was off, Percy Nicholls scored for Bobcaygeon on a pass from Newman. Half a minute later Brohm scored the final goal of the evening on a pass from Dart. So the game ended Haliburton Huskies 6, Bobcaygeon Kinsmen 2. The Huskies have opened the new year in fine style and here's hoping they can keep it up.

Peterborough will make their initial appearance in Haliburton this Friday. This should be a great battle. Don't miss it.

Two big hockey games were cancelled last week end on account of soft ice. The game scheduled for Lindsay where the Peterboro team was to meet Haliburton Huskies in a scheduled OHA Intermediate game was the first. A bus had been chartered for the game but had to be cancelled. The second was in Haliburton where the Lindsay Midgents were to meet the Haliburton Legionnaires in an exhibition tilt. Soft ice forced the game to be cancelled. This game will be played at a later date.

Now don't forget the big game this Friday in the Haliburton Community Arena. It's the Peterboro Intermediate against the Haliburton Huskies. Game starts at 8.30 p.m.

So until next week, back your home town hockey team. Good luck.

North Towns Produce Good Hockey Teams

Many of the towns of Victoria and Haliburton are good hockey towns while others are not.

The trouble with a number of towns is that there are too many retired people who are not hockey minded and who haven't any interest in youth or hockey. To produce good hockey teams a town must have good backing from the business men and citizens.

Take for instance the Northern towns of Kimmount, Minden and Haliburton. They have always been known as good hockey towns. Why? Because the people take an interest and start their players out young. Another reason is because the fans really turn out and support the teams. If you hold a game in either of these places you can always be sure of a crowd turning out in large numbers to support their team. This is why the Northern towns always boast of great teams.

Don't forget that one of the solutions to juvenile delinquency is a hockey stick and a pair of skates.

CLASSIFIED ADS

Classified advertising columns offer a convenient and economical market for quick results.

FOR SALE — Protection at minimum cost. New low rates on farm, car and fire insurance in Haliburton district. Write Frost Insurance Agencies Ltd. Temple Bldg., Lindsay. t/f

Lost — Female hood in town-foot of Hindon, two toes off front foot. A. W. T. branded on side. Anyone having this dog in possession would you write A. W. Tingey, Bracebridge, Ont. 27/3/10

Help Wanted — Young man, now discharged from Armed Forces, preferably with some experience in newspaper work to assist publisher - apply in own hand writing stating full details in first letter to A. Furney, Thorold News.

Wanted — Builder to contract to build 20 log cabins in Haliburton County. Kindly submit plan specifications and approximate cost of plan that may be used as a basis of design and construction apply to Box 120 Hal. Co. News Office. Haliburton, Ont.

HALIBURTON

Mr. and Mrs. Harry Brohm and Mr. Grant Scheffee were business visitors in Lindsay last Thursday.

Mrs. Dick Roberts and family of Toronto have been the guests of her father Mr. Charles Roberts over the holiday.

Mr. D. A. Kenning has taken his position as teacher of the third room in the Haliburton Public School. He has relieved Mr. James McCall.

Miss Mae Davies is at present a holiday visitor at her home here.

We are glad to welcome home two of our local lads Bill Niemi and Austin Henderson who were overseas with the Canadian Army. Both of these lads were overseas for quite some time.

Mr. Max Fetterly was a week end visitor in Haliburton.

Miss June English was a holiday visitor in Toronto last week.

THURSDAY JANUARY 10, 1946

BERT SOWARD CELEBRATES SEVENTY-FIFTH BIRTHDAY

Toronto, Dec. 29th (Special) Mr. Hubert (Bert) Soward, for many years a General Merchant in Minden, celebrated his 75th birthday on December 29th. A family dinner was held at the Granite Club at which Mr. and Mrs. Soward, their four sons and their wives, a daughter Kathleen and her husband were all present. On behalf of the family, Fred, who had come from Ottawa for the occasion, made a presentation of a Wallet containing a sum of money, to his father. Later a reception was held for a number of friends and relatives at the home of Harold.

Mr. Fred Stinson proposed a toast to the health of Mr. Soward. He recalled that he had known him since Bert was 13, when he first went to Minden on a visit. A few years later Bert went to work in the General Store of Mr. Edward Noice (father of Walter Noice) and later acquired the business which is now conducted by Mr. Moss Kellett. Mr. Soward and his family moved to Toronto in 1919 and for several years he has managed the Branch Lumber Yard of Mr. Stinson. Mr. Fred Fielding, who was also present, stated that he and Bert had been close friends for fifty-five years.

Mr. Soward is enjoying the best of health, and his many years spent in the bracing air of Haliburton County must have had a beneficial effect as his appearance belies his years. He continues to be active in business and church activities.

NEW WORLD

The new World we want. Won't show on the map. Outlined in blue, yellow or red. It just glows in the hearts Of the people who pledge Their all to the days ahead.

If we do nothing but devise new systems we will simply repeat history. If we create new people we will change history.

where from 20 to 30% below and we had quite a spell of it. Quite a change this week end, next door to rain. Must be the January thaw we hear so much about. Well, I guess it is seasonable and it is surely very invigorating. Very little wind for which we ought to be truly thankful.

Quite a few have colds and flu, but it seems to me some of them are very careless about it. It could lead to something worse.

Our day School Christmas tree and concert was a great success. Much praise is due to the pupils and to Miss Collen Robinson, the teacher, who must have worked very hard and had great patience to train the youngsters so that they put on a great show. Santa Claus I think was too busy this year so he sent his daughter, who made a very good substitute alright. Each pupil received a present. Those who were absent through illness or living a long distance away had their present sent on to them. No one was forgotten.

Our skating rink is all ready except for ice. Weather too mild just now, but lots of time yet. The school principal, Mr. Rennick, has the scholars playing 'shinny', kind of ground hockey. They roll the snow flat and go to it. This is practise for when the rink is ready.

By using the Golden Rule — 1946 could be a great year.

INFORMATION ON LOTTERIES, RAFFLES AND BINGOES

The following information has been sent to County Constable Lawrence Pritchard at Minden — from the Crown Attorney, J. E. Anderson:

The Department of the Attorney General (Ontario) has reached the conclusion that illegal lotteries, raffles and bingos (other than occasional bingos for religious or charitable purposes) have reached such proportions that it has become necessary for the Department to intervene in the enforcement of the provisions of the Criminal Code relating to these practices.

The provisions of the Criminal Code with the exceptions hereinafter mentioned prohibit the disposition of property, goods, wares and merchandise by lotteries and raffles and the holding of bingos. The penalty in relation to conducting or managing a lottery scheme or advertising or publishing the same is two years imprisonment and a fine not exceeding \$2,000. It is also an individual offence punishable by a fine of \$20 for anyone to buy, take or receive a lottery ticket. The exceptions mentioned above are that items of goods, wares and merchandise may be raffled do not exceed in value \$50.00 and are first offered for sale, and that occasional bingos may be held by charitable and religious organizations if the proceeds are to be used for the benefit of a charitable or religious object.

At the time when the recent war commenced, lotteries, raffles and bingos, which at one time were a flourishing racket in the Province of Ontario, had been brought under control by the law enforcement agencies. These schemes, however, were revived for war charity purposes during the late war and were mostly conducted by organizations registered under the War Charities Act (Dominion.) Altho permits issued under the War Charities Act to conduct a war charity do not specifically authorize organizations to carry on lotteries, raffles or bingos contrary to the provisions of the Criminal Code, the advertisement of these schemes by organizations holding such permits has created in the minds of many members of the public the impression that these activities are not illegal or harmful.

The practice of conducting lotteries, raffles and bingos has proved to be a comparatively easy method of raising money with the result that these practices have assumed immense proportions. Lotteries are no longer confined to one municipality but have become in many instances province wide and even nation wide.

With the ending of the war it has now become apparent that unless checked, the conduct of lotteries, raffles and bingos will fall again into the hands of professional promoters and will again degenerate into a racket. Funds so raised from the public will line the pockets of the promoter with relatively small benefit to the organization which allows its name to be used for such a scheme.

Ordinarily, law enforcement with regard to these practices is left to the local authorities. Any official, policeman or member of the public is in a position to deal with the offences in question by the laying of an information. During the war the popularity of such schemes gained such public support that it became extremely difficult to enforce the law against the obvious acceptance by charitable and religious organizations and by the public of these methods of raising money in war time. The result today is that such schemes have reached such proportions and there is such danger of the public being victimized by the racketeer type of lottery promoter that action must be taken. In view of the province wide and even Nation wide nature of some of the schemes in question the Department of the Attorney-General (Ontario) is communicating with all local law enforcement agencies in the province with a view to having the necessary action taken by these authorities. Also local crown attorneys who represent the Department throughout the Province are being advised to cause necessary action to be taken in the matter of lot-

teries, raffles and bingos engaged in contrary to the provisions of the Criminal Code.

Complaints against any person or persons for conducting or promoting an illegal lottery, raffle or bingo or against any newspaper or other publication for carrying notice or advertising relating to such illegal schemes, will be referred to the local law enforcement officers in the County or district in which the alleged violation of the law is taking place.

NEWFOUNDLAND VOTE VISTA

Newfoundland, Great Britain's oldest colony, has been without an elected responsible government since 1933 when pressing economic difficulties resulted in the formation of an appointed commission of government made up of three members from the United Kingdom, three Newfoundlanders, and a chairman, who is also Newfoundland's Governor and is appointed by the British Government.

The SNAPSHOT GUILD

PHOTOGRAPHIC GREETING CARDS

It's easy to produce greeting cards with your own snapshots. Once you've selected the illustration you can make the card yourself, or have your photofinisher do the work for you.

IT'S not one day too soon to think about Christmas greeting cards. "Well," you may say, "I can buy my cards later on at the store." That's true enough and commercial greeting cards serve their purpose admirably but a photographic Christmas card made from one of your very own snapshots carries a pictorial message of cheer that is equalled only by a personal visit.

If you have your own darkroom you can buy the materials for making greeting cards from your photographic dealer or, if you prefer, your photofinisher can make the cards from your negative.

Maybe you have already snapped a picture that will make an attractive card. If not, you can think of all sorts of ideas for making one specially for a Christmas card. If you have a family, or are a member of one, you certainly can't go wrong if you include all the members in the picture. Don't, however, have them staring blankly at the camera like a group of store manikins. Have them relaxed. The easiest way to accomplish this is to have them doing something. For example, you

might "stage" the picture by having them grouped around a living room table apparently busy wrapping Christmas packages.

Babies and children are mighty important, too. Here's one idea that can be easily worked out. With a set of baby blocks spell out "Merry Christmas" on the floor and then pose baby Jane in a position where the view will include her and the blocks—then snap the picture. Such a picture can be taken by a sunny window or you can use photoflood bulbs or ordinary home electric light bulbs in reflectors for your illumination.

It's all just a matter of using your power of thought to work out different ideas. "Tricky" stunts are not at all necessary but try to have something pertaining to the family or the place in which you live. In other words... make it personal.

Whether you use a picture which you now have or make a new one... don't delay. There's not a minute to lose if your photo greetings are to reach their destination on time.

KINMOUNT

Cpl. Harry Schroter of the RCAF who has been stationed on the East Coast for some time is spending a short leave at his home here. His three brothers are expected home from overseas within the next week.

Pte. Jack McNamara is spending a few days at home also.

The Misses Mildred Brown and Joan Pryor also Garnet Brown, have returned to Toronto after spending the Christmas vacation here.

Mr. and Mrs. Percy Brown and son Larry visited with the former's mother during the holiday season.

Mr. Howard Silver of Burnt River is spending New Year's at home.

Mr. and Mrs. Robert Lyle are in Toronto at present owing to the death of Mrs. Lyle's father. The friends and neighbors extend their deepest sympathy to them.

Mrs. Myra Gilmore has left for Montreal where she intends meeting her son Norman who is returning from overseas.

The Minden hockey team motor-ed to Kinmount on Friday last to play hockey but on account of the

soft ice the game was called off after second period as it was almost impossible to carry the puck thru the water and snow on the ice surface. The score at that period was 4-3 in favor of Kinmount.

Mr. and Mrs. C. J. Austin have taken a trip to Florida recently.

Bill and Dick Austin and Joe Mac were visiting in town this week. These boys have just returned from overseas.

PENICILLIN FROM CANADIAN FARMS

Canadian farmers will soon be playing an important part in the control of such diseases as typhoid and dysentery. Milk sugar extracted from whey and fed to the penicillium mould from which penicillin is refined, will be used to produce the new wonder drug, streptomycin, the Dominion Department of Agriculture has announced.

Canadian drug manufacturers are understood to be planning full scale production of streptomycin in the near future. This drug is outstandingly effective against disease caused by gram negative bacteria, comparatively few of which are suppressed by penicillin. Production of both drugs in Can-

ada has been made possible by the Dominion Department of whey from cheese factories in parts of Eastern Ontario and Western Quebec. Transported in tank trucks to a condensary in New York State, the whey is processed into milk sugar and whey powder. Most of this milk sugar and some of the whey powder returns to Canada, the sugar for use in drugs and baby foods and the powder for enhancing the vitamin content of live stock feeds.

Tens of millions of pounds of Canadian whey have been converted to these special products in the past two and one half years.

HOW KNOTLESS TIMBER CAN BE GROWN

In the main, knots lower the value of lumber. A possible exception might be certain ornamental woods where the knots are small and provide a decorative pattern.

Knots are formed where limbs branch off from the tree trunk. Knotless timber would result if branchless trees could be grown. But branches and leaves are part equipment, so apparently the for-ester cannot be of much help to the lumberman on this score.

However, Prof. Paul Krotkevich of Russia's Kiev Forest institute, offers an interesting solution to the problem. He has announced a novel upside down method of tree pruning which may be expected to yield knotless pine logs 20 feet and more in length.

The traditional method of pruning evergreens is to permit the young trees to attain a considerable growth before any trimming is done. Then the lower branches are removed, leaving the top branches to grow unhindered. This method, however, leaves the bases of the low branches imbedded in the trunk of the tree and these bases of lopped off branches appear as knots in the boards which which are sawed from the trunk in the lumber mill.

Under the method developed by Prof. Krotkevich, the pine is untouched until it is about eight years old. At that point in its development, the central leader is prevented from producing any branches by the simple process of pinching off the side shoots as they

THURSDAY JANUARY 10, 1946

form. The leader consequently grows into a branchless pole some 20 feet long, after which the top is allowed to branch freely to form a topknot to the tree. The ruff of large base branches do the 'breathing', for the tree while the leader is stretching up its 20 branchless feet. There would be no knots in the section of the pine trunk between the bottom ruff and the tree's topknot.

With inflation we suppose that one would feel like 'fifty cents' rather than the customary 'thirty'.

Uncle Jaspas says everything comes to them that rate.

GREAT IMPROVEMENTS CREDIT TO CEMETERY BOARD

Mrs. George McDonald, who was confined to the Hospital, passed away on Sunday at 5.30 p.m.

The weather at present is very mild and very little snow left. Work in the bush is at a standstill owing to the soft condition of the roads. At the local Arena all activities were cancelled over the week end owing to the soft condition of the ice.

The dance sponsored by the Haliburton Cemetery Board was a most successful event in every way. A very large crowd was in attendance and a most enjoyable evening was spent. During the intermission between dances, short addresses were given by Reeve G. E. Earle and Frank Welch of Minden. The Haliburton Cemetery Board deserve great credit for the work they have done in connection with our Cemetery. Just a few short years ago this was one of the most neglected and dilapidated spots that could be imagined and no individual or organization seemed to care or do anything to remedy the situation. The Cemetery Board was formed and they hired Mr. Wood Kellett as caretaker and he steadily improved things. Each year some progress has been shown. Mr. Kellett after rendering wonderful service

had to resign owing to ill health. Mr. Charles Roberts has taken over and is keeping up the good work of his predecessor. The Cemetery Board are not resting on their laurels despite the great improvement to date but are contemplating a new vault to be erected in the near future.
